

BISHOP MORRISON IN PETERSBURG

Preaches to Large Congregation. Many Changes in Methodist Churches Expected.

CAMPAIGNING IN FOURTH

Candidates Have Begun Active Work—News of Petersburg and Vicinity.

The Times-Dispatch Bureau, 109 North Sycamore Street, Petersburg, Va., November 8. Bishop Morrison, of Florida, after spending several days with friends in this city, left this afternoon via Richmond for Newport News, where he will open the session of the Virginia Annual Conference on Wednesday. The bishop preached to a great congregation in the Washington Street Church last night. A great deal of interest is expressed among Methodists here as to the appointments to be made at this session of the conference. The bishop is known to favor a strictly four-year term for presiding elders, and by reason of this fact the most influential of the churches may be affected. While otherwise it might not be necessary to make many changes in the appointments this year, it would not be a surprise to many thoughtful Methodists if something like a general shake-up should occur. In Petersburg there will be a change in all but two of the churches.

Serious Cutting Affair. During the progress of a gambling game late Saturday night, in a house on Gill Street, a quarrel occurred, during which one of the participants in the game was severely cut. A fight followed between Moses Taylor and Thomas Morgan, negroes, in which the latter was stabbed three times by Taylor, once in the throat, once in the side of the neck, and again under the

Fire in Prince George. The residence of D. R. Wood, in Prince George county, about ten miles from Petersburg, was destroyed by fire late Saturday night, with all the furniture and household effects. Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day by

It Makes Weak Women Strong,

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. FARMERS WILL ADJOURN TO-DAY

Columbus, Ohio, Will Probably Be Selected as Next Place of Meeting.

MANY RESOLUTIONS PASSED

Various Subjects Entertainingly Discussed by Speakers From All Sections.

RALEIGH, N. C., November 8.—A reduction in the mileage allowance of members of Congress from 10 cents to 5 cents a mile is sought in resolutions adopted by the Farmers' National Congress here to-day.

Legislation to establish four national roads from the Atlantic to the Pacific, the strengthening of the "oleo" law, a law prohibiting railroads from charging a full trip mileage rate in excess of the rates of the States through which the trip extends, the enactment of a postal bank law, increasing the franking privilege to State agricultural schools and colleges for the extension of publication work, were urged in other resolutions.

Favors Parcel Post. The congress also placed itself on record in favor of the enactment of a law modernizing parcel post system, urged Congress to appropriate money for denatured alcohol distilleries at selected agricultural experiment stations, and favored government aid to public roads.

Representative Small, of this State, in addressing the congress, told how the agricultural interests of the South would develop through the establishment of the inland waterways.

Clarence H. Poe, editor of the Progressive Farmer, of Raleigh, pointed out the great advance made in Southern agricultural methods. Dr. F. L. Stevens, bacteriologist of the North Carolina Agricultural and Mechanical College, told of the efforts to get rid of plant diseases. Dr. J. L. Burgess, agronomist of the North Carolina Department of Agriculture, also spoke.

That the unrest of women in farm homes is due to a lack of modern improvements, to colorless monotony attending isolation and to a lack of independent earning power, was the opinion expressed by Mrs. Alice E. Whitaker, of Washington, in a paper read before the congress.

The condition of women would be vastly improved, Mrs. Whitaker declared, if home industries could be introduced on the farm to make use of its products and to furnish an income

from congenial employment. The making of rugs, coverlets, patchwork, and basketry were some of the lines of activity that had, within recent years, been revived with such success that considerable money had been brought into isolated communities, with the result of greatly adding to the comfort of the people and the attractiveness of home life.

The congress held only morning and afternoon sessions to-day, omitting a night session. It will adjourn to-morrow after electing officers and selecting the next place of meeting. Columbus, O., appears to be the favorite.

The resolutions adopted at the afternoon session were:

Favoring a national pure seed law; for the government to demand a reasonable rate of interest on its national bank deposits; demanding an accounting for all public funds expended in bounties, subsidies or gratuities; for the national government to take Guilford battle ground under its care; electing Secretary of Agriculture Wilson a life member because of his service to agriculture; for a committee of the Farmers' Congress to investigate the matter of equality of taxation; against the ship subsidy bill; favoring temperance; against the fertilizer trust; for a storage system of cotton so as to maintain prices on a profitable basis; for the co-operation of the Federal and State governments in the reclamation of swamp lands; opposing standing armies and in favor of arbitration.

Dr. Julian wants the ministers to stir up the people of North Carolina to the dangers of the terrible white plague and to explain to them how this fatal malady may be wiped out by preventive measures. By riveting the attention of all classes upon this one subject on the same day he hopes to induce a new and effective method for fighting the disease.
